

Report Fire Loss For Month

A barn fire on Kidd Road in the Town of North Dansville on Aug. 27, raised the fire loss estimate in the area served by the Dansville Fire Department by \$25,000, according to the monthly report of Chief Gerald Welch Jr. submitted last week to the Village Board.

Welch noted that three other fires added an additional \$950 to the loss estimate for the month. They consisted of a truck fire in Ossian, \$300; two car fires on I-390, one in West Sparta, \$400 and the other in North Dansville, \$250.

Volunteers and equipment were called out on a fuel leak and to three motor vehicle accidents, but no losses were reported. The department also was called out to stand-by for the West Sparta Fire Department for a brush fire, Welch reported.

Police Probed Thefts

August losses amounted to \$6,691 in property stolen, according to the August report of Police Chief Marc Vernam submitted to the Dansville Village Board at its meeting last week.

Vernam noted his department recovered property valued at \$1,302 during the same period. Criminal mischief losses amounted to \$822.

Vernam said the department received 389 complaints during the month; there were 77 arrests and 18 accidents.

For the year, stolen property totals \$59,057, with \$45,339 reported in property recoveries. Criminal mischief damages amount to \$15,008. The department has received 3,064 complaints. There have been 438 arrests and 117 accidents, Vernam said.

SAVING ENERGY

One way to save energy is to change from incandescent bulbs to fluorescent lighting, especially in kitchens, bathrooms and work areas. Fluorescent tubes give more light at lower energy than incandescent bulbs of the same wattage. Plug-in fluorescent fixtures are available in hardware stores, or an electrician can install permanent fixtures.
